Tubman-Mahan Gallery Celebrates one-year anniversary with ReCreate: H₂O exhibition

October 10, 2011—Join The Center for Green Urbanism Tubman-Mahan Gallery for the second *ReCreate* exhibition focused this year on water –sustainability of our lives locally and globally. **ReCreate: H₂O will take place at The Center for Green Urbanism Tubman-Mahan Gallery, 3938 Benning Road, NE, Washington, DC, October 10 – November 11, 2011**

The exhibit, *ReCreate: H₂O* recognizes the important role water plays in our lives, encompassing social, economic, cultural, and environmental issues. Artists interpreted the water theme by reflecting on its role individually and on a global scale and how they would *recreate* their world to make it better.

ReCreate: H₂O will begin the celebration at the **Opening Reception on Friday, October 14, 2011, 6:30-8:30pm at The Center for Green Urbanism**, in Washington, DC's Ward 7. The event will feature music by **East of the River Boys and Girls Steelband** and light refreshments.

Featured artists:

Zandra Chestnut
Irisol Gonzalez
Carol Herwig
Russ McIntosh
Jeannie Monoco
Candice Schibli
Dawn Whitmore

ReCreate: H₂O events will all be held at The Center for Green Urbanism:

- “ReCreate: H₂O,” art exhibit, featuring the work of local artists, October 10 – November 11, 2011. The Center is open for viewing Tuesday-Friday, 10-5pm and weekends by appointment.
- Opening Reception, Friday, October 14, 2011, 6:30-8:30pm, featuring the East of the River Boys and Girls Steelband and refreshments.
- Coffee with the artists of *ReCreate: H₂O*, Wednesday, October 19, 2011, 6:30-8:30pm – bring your own mug and hear about the artists’ inspirations and work.
- Water in the Neighborhood event, film viewing of *F.L.O.W. (For the Love of Water)*, DC Water presentation on water and sewer projects in the District followed by a discussion, Saturday, November 5, 2011, 11am-2pm

The Center for Green Urbanism

The mission of the Center for Green Urbanism is to create a business-friendly environment that provides startups with affordable office space and business services in a sustainable and energy efficient green demonstration facility. We are located in downtown Ward 7, Washington, DC. Meeting spaces are available and Wi-Fi is accessible throughout the facility. The Center is a design model for a “living green business” in an urban setting, by decreasing carbon footprint – promoting home gardening, using energy efficient lighting and appliances, solar shade window treatments, a purified drinking water system, water saving devices and the recycling of trash and waste.
